PROFESSIONAL SUMMARY

Data Analyst and Artificial Intelligence & Data Science graduate with experience in SAP reporting, financial analysis, Power BI dashboard development, and SQL/Python-based analytics. Skilled in KPI reporting, variance analysis, forecasting, data visualization, and business intelligence. Experienced in transforming business data into actionable insights using SAP, Power BI, Excel, Python, SQL, and machine learning techniques. Currently working in Finance & Controlling at ZF Group supporting month-end reporting, planning, forecasting, and profitability analysis.

WORK EXPERIENCE / INTERNSHIP

Data Analyst – Finance & Controlling Jan 2026 – Present
ZF India Private Limited (ZF Group), Global Business Service Centre Chennai, India

- Performing Month-End Closing (MEC) activities using SAP and Excel to support accurate financial reporting.
- Conducting Actual vs Budget and Forecast variance analysis to identify key performance drivers and cost deviations.
- Developing interactive Power BI dashboards for KPI monitoring, cost tracking, and management reporting.
- Supporting planning, forecasting, and product profitability analysis through structured financial data modeling.
- Extracting, validating, and transforming SAP financial datasets to improve reporting accuracy and operational efficiency.
- Collaborating with finance stakeholders to provide actionable insights for business decision-making.

Associate — Hurix Systems Pvt. Ltd. Nov 2025 – Jan 2026
(via Talent Maximus Payroll Services Pvt. Ltd.) Chennai

- Supported digital learning and content technology projects across multiple business functions.
- Managed data handling, documentation, workflow coordination, and quality assurance activities.
- Collaborated with cross-functional teams to ensure timely project delivery and process improvements.
- Assisted in operational reporting and system coordination to maintain project quality standards.

Web Development Intern — CODEBIND Technology Jan 2022 – Mar 2022

- Contributed to projects such as *Online Restaurant Management*, working across frontend and backend.
- Built responsive user interfaces, integrated RESTful endpoints, and managed relational databases (CRUD, schema design, queries).
- Gained real-world exposure and mentorship in a dynamic environment; collaborated in an agile setup with code reviews and version control.

PROJECTS

StockSage

[GitHub](#) ↗

A comprehensive stock analysis web application built with **Python** and **Streamlit**.

- Developed a real-time stock analytics platform using Python, Streamlit, and yFinance API.
- Built interactive dashboards for multi-stock comparison and historical trend analysis.
- Implemented time-series forecasting models using Prophet for stock price prediction.
- Designed advanced visualizations using Plotly to support data-driven investment analysis.

Instagram Clone (Python)

[GitHub](#) ↗

Instagram-like mobile UI clone built with **KivyMD**.

- Designed modular components: app bar, story creator, bottom navigation, and post cards.
- Structured layout with KV files for responsive and extendable UI design.
- Focused on learning social app interface workflows.

AI Automation Assistant (ML)

[GitHub](#) ↗

An intelligent desktop assistant for smart task automation.

- Developed an intelligent desktop automation assistant using Python and NLP technologies.
- Integrated Hugging Face Transformers for natural language understanding and command interpretation.
- Implemented voice activation using Porcupine and automated system tasks including application launching and messaging.
- Built a Bootstrap-based interface with backend services for command routing, chatbot interactions, and activity logging.

EDUCATION

2021 – 2025 B.Tech, Artificial Intelligence and Data Science at **Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College** (CGPA: 8.00/10)

2021 Senior Secondary (XII), HSC at **Padma Sarangapani Matric Hr Sec School** (Percentage: 90.85%)

2019 Secondary (X), SSLC at **Padma Sarangapani Matric Hr Sec School** (Percentage: 89.00%)

SKILLS

Programming	Python, SQL, JavaScript, HTML
Analytics & BI Tools	Power BI, Tableau, Microsoft Excel, SAP
Data Analysis	Data Cleaning, Data Validation, KPI Reporting, Dashboard Development, Forecasting, Variance Analysis
Machine Learning	Pandas, NumPy, Scikit-learn, PyTorch
Database	MySQL
Web Technologies	Flask, ReactJS, Streamlit
Version Control	Git, GitHub
Operating Systems	Windows, Ubuntu
Professional Skills	Problem Solving, Analytical Thinking, Communication, Team Collaboration, Stakeholder Management
Languages	English, Tamil, Hindi

TRAININGS / CERTIFICATIONS

Jul 2023 – Nov 2023	Python Beginner & Python Programmer at NeoOrange, Chennai Credential ID: NOT221104
May 2023 – Sep 2023	Programming in Python DSA at NeoOrange, Chennai Credential ID: NOT221104
Apr 2023 – Jul 2023	Programming in Python Data Science at NeoOrange, Chennai Credential ID: NOT221104
Jan 2023 – Apr 2023	Data Analytics with Python at NPTEL Swayam, Virtual
Aug 2025	Python & SQL Training at Besant Technologies, Chennai Credential ID: BDZ-124505

ACHIEVEMENTS

- Artificial Intelligence and Data Science Graduate with CGPA 8.00/10.
- Developed multiple end-to-end analytics, machine learning, and automation projects using Python.
- Experience in enterprise finance reporting, SAP analysis, and Power BI dashboard development at ZF Group.
- Active GitHub contributor with projects in Data Analytics, Machine Learning, NLP, and Web Development.
